Welcome to ElixirOffice

Sample newsletter - January 2026

ElixirOffice is a private, AI-ready office suite that runs in your browser and feels like the tools you already know. This short newsletter is a sample document: edit it, comment on it, or start a new one from the Home page.

What you can do

- Write letters, reports and newsletters with the usual shortcuts.
- Build budgets and charts in the spreadsheet editor.
- Present your ideas with clean, consistent slides.
- Keep your files on your own server: nothing leaves without your say.

Upcoming events

12 Feb	Open workshop: first steps	Room A
26 Feb	Tips and shortcuts	Online
11 Mar	Share and review together	Room B

Questions or ideas? Reply to this newsletter and we will gladly help.
